drawing on the underrepresentation of the global south in global knowledge production with a focus on the existing inequalities the book highlights the importance of postcolonial narratives within global southern epistemologies in english language teaching elt and teaching english to speakers of other languages tesol chapters consider the epistemological landscapes of these fields their dedication to english teaching and english related topics and the intersection of the coloniality of language and the supremacy of english worldwide the book explores the type of discussion that is needed to advance a more nuanced understanding of sociopolitical circumstances and how they shape our academic practices and theorizations of elt and tesol in doing so

chapters examine the current geopolitics of knowledge that are found in journal publishing citing how it favours the global north and further exploring ways of decolonizing language practices teaching approaches and research cultures calling for greater visibility and recognition of southern ways of knowing within elt and tesol practice and research the book will be an essential reading for scholars researchers and students of tesol elt applied linguistics and multilingualism

this book deals with curriculum issues and problems and one of its aims is to help practising teachers to clarify their own theory and practice in relation to the curriculum the contributors look at three popular theories or sets of assumptions held by teachers the child centred view of education the subject centred or knowledge centred view and the society centred view each of these views is incomplete on its own but each has something to contribute in planning a curriculum as a whole and the authors emphasize that a comprehensive theory of curriculum planning would take into account the individual nature of the pupil and also recognize the social value of education this kind of comprehensive curriculum planning has been described as the situation centred curriculum based on the idea that schools should be concerned with preparing the young for the world as it will be when they leave school one of the purposes of education is to develop a child's autonomy he or she must learn to cope with the variety of situations which will face him or her in society thus many different approaches must be employed in establishing a basis for the complex task of curriculum planning the book draws on the disciplines of philosophy psychology history and sociology to suggest new approaches to curriculum objectives and evaluation it considers the theoretical bases of curriculum models practical issues of planning evaluation and pedagogy and discusses some urgent contemporary questions about the politics and control of the curriculum

unique in the way it links five major career development and choice theories to a fictional case client this user friendly text is ideal for counselors engaged in helping clients make wise career choices thoroughly updated the third edition of career theory and practice takes a multicultural approach as it blends theory practical examples and specific cases helping readers apply a wide range of career development theories to counseling clients

this book offers a model to bridge the differences between political theorists and social scientists focusing on deliberative practices

we live in a learning society more and more research is being done on how people learn this practical book looks at current theories of learning how they have developed and demonstrates how these can be put into practice education and learning are separate things learning is a human phenomenon essential to growth and development occurring throughout life with or without a teacher the authors begin with a broad examination of the social changes that have made learning such a central concept in contemporary society and discuss the definition of learning the current theoretical approaches to

learning are then presented in clear understandable terms with an in depth discussion of the strengths and weaknesses of each approach the book ends with an introduction to the literature and forms of adult learning and suggestions on how each type can be used in either an educational or human resource developmental setting

theory has been used widely in the field of second language writing second language writing specialists teachers researchers and administrators have yet to have an open and sustained conversation about what theory is how it works and more important how to practice theory practicing theory in second language writing features fourteen essays by distinguished scholars in second language writing who explore various aspects of theoretical work that goes on in the field

today s clinical social workers face a spectrum of social issues and problems of a scope and severity hardly imagined just a few years ago and an ever widening domain of responsibility to overcome them theory and practice in clinical social work is the authoritative handbook for social work clinicians and graduate social work students that keeps pace with rapid social changes and presents carefully devised methods models and techniques for responding to the needs of an increasingly diverse clientele following an overview of the principal frameworks for clinical practice including systems theory behavioral and cognitive theories psychoanalytic theory and neurobiological theory the book goes on to present the major social crises problems and new populations the social work clinician confronts each day theory and practice in clinical social work includes 29 original chapters many with carefully crafted and detailed clinical illustrations by leading social work scholars and master clinicians who represent the widest variety of clinical orientations and specializations collectively these leading authors have treated nearly every conceivable clinical population in virtually every practice context using a full array of treatment approaches and modalities included in this volume are chapters on practice with adults and children clinical social work with adolescents family therapy and children s treatment groups other chapters focus on social work with communities affected by disasters and terrorism clinical case management cross cultural clinical practice psychopharmacology practice with older adults and mourning and loss the extraordinary breadth of coverage will make this book an essential source of information for students in advanced practice courses and practicing social workers alike

this introductory text explains and places in an historical context the development theories behind contemporary debates such as globalization the author describes and explains how approaches to development have changed over time and how approaches vary spatially

the interest of the writers of these essays in the intricacies and implications of translation in the middle ages or of the translation of medieval texts in te modern period has resulted in a diverse and intellectually stimulating volume the papers in this volume written in either english french or spanish approach translation from a wide variety of

perspectives and offer a range of interpretations of the concept of translation the volume contains essays ranging in time from the anglo saxon period to the present and in topic from medieval recipe books to arguments in favour of women administering the sacrament languages studied include non european languages as well as latin and numerous european vernaculars as both source and target languages as any translator or student of translation quickly becomes aware it is impossible to divorce language from culture all the contributors to this volume struggle with the complexities of translation as a cultural act even when the focus would seem to be specifically linguistic it is these complexities which lend the study of the theory and practice of translation in the middle ages its enduring fascinatio

includes official department conducted by superintendent of public instruction

in this volume julie klein provides the first comprehensive study of the modern concept of interdisciplinarity supplementing her discussion with the most complete bibliography yet compiled on the subject in this volume julie klein provides the first comprehensive study of the modern concept of interdisciplinarity supplementing her discussion with the most complete bibliography yet compiled on the subject spanning the social sciences natural sciences humanities and professions her study is a synthesis of existing scholarship on interdisciplinary research education and health care klein argues that any interdisciplinary activity embodies a complex network of historical social psychological political economic philosophical and intellectual factors whether the context is a short ranged instrumentality or a long range reconceptualization of the way we know and learn the concept of interdisciplinarity is an important means of solving problems and answering questions that cannot be satisfactorily addressed using singular methods or approaches
